Release Summary

This release contains improvements and bug fixes to our Avast Business Cloud Management Console.

Improvements/Changes

[CBC-8213]	Protect more devices button will no longer show under Subscriptions section for customers in Russia, Ukraine, Kazakhstan and Poland. Instead when renewing your service subscription you will be able to increase/decrease seats in the shopping cart
------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Bugs

[CBC-7727]	Fixed a bug with the tooltip under Reports > Devices > Device overview tooltip in Portuguese language
[CBC-8663]	Fixed server error message on Patches page when one or more devices does not have a deviceID associated with it
[CBC-8748]	Internal Server Error message will no longer appear when inviting a new administrator to your Cloud console
[CBC-8198]	Resolved some unexpected reboots on server devices that have Avast Business Antivirus, the issue was that "do not restart" option under the Patch Management policy was updated to also include an additional option "Force restart automatically if no active user session"

Known issues

[CBC-6967]	Some devices experiencing issues with update and scan commands not starting from existing Tasks
[CBC-7209]	Device name and platform filter not sorting correctly

[CBC-7317]	Email notifications and invitations for new administrators are not received
[CBC-7961]	Antivirus was uninstalled from the company
[CBC-8198]	Unexpected workstation/server reboot
[CBC-7826][CBC-7696]	Password protection controls not applying correctly
[CBC-8648]	Session Expired constantly appearing
[CBC-8474]	Proxy information is used for connection to local update server
[CBC-8749]	There is a synchronization issue around proxy settings on the local client. When switching from proxy to non-proxy setup, devices do not update to show no proxy settings
